WORK EXPERIENCE

Torc Robotics

2022 - Current

1. *Safety Conductor Lead 2*

- Safely execute tests relating to the development of a Class 4 self driving semi truck. Execution requires high level technical knowledge of Linux & Docker, as well as integration of sensors and cameras with development software.
- August of 2023 I was promoted from Safety Conductor 1 to Safety Conductor 2 in recognition of my continued development and troubleshooting abilities.
- Selected for every demo in 2023, facilitating interactions with high level officials either internally or externally while demonstrating the capabilities of our product.
- Critical in the development of the downhill grade software by effectively facilitating communication between Test Engineers and Fallback Driver.

Templeton Transportation

2018 - 2022

Hazardous Materials Driver

- Transport hazardous materials in a safe, legal, and expedient manner. Ensure orders are completed correctly.
- Ensure invoices are completed and that customers pay in a timely manner. Ensure insurance and permits valid.

New Mexico Gas Company

2016 - 2018

Customer Service Representative Senior

- Handle all inquiries, billing disputes, service interruptions, and moving requests from customers.
- Handled deployment of Keyboard Express on 30 agent machines. Supported employees how to use program.
- Beta tested new website for web-developer and provided constructive feedback to help them implement changes.
