WORK EXPERIENCE

Torc Robotics

2024 – Current

Quality Test Engineer

Albuquerque, New Mexico

- Developed and tested software for self-driving semi-trucks, leveraging Linux and Docker for troubleshooting, log analysis, code debugging, scenario simulation, and sensor calibration.
- Drafted test requirements, scheduled tests, and ensured proper execution while meeting safety and quality standards. Drafted tickets for identified issues and provided them to development teams for resolution.
- Troubleshoot and maintained autonomous vehicles, analyzing test data and resolving issues with CAN bus, Ethernet, and sensor systems (LiDAR, radar, GPS).
- Collaborated with cross-functional teams to align testing processes with company objectives in a dynamic work environment.

Torc Robotics

2022 – 2023

Fleet Operations Specialist

Albuquerque, New Mexico

- Conducted and documented development tests, providing feedback to developers and explaining procedures to team members.
- Performed front-line troubleshooting of semi-trucks using Linux, Docker, and sensor systems, including LiDAR, radar, and cameras.
- Monitored real-world tests, enforcing strict safety protocols and documenting safety-critical incidents.
- Collaborated with teams to ensure clear communication of system behaviors and testing outcomes.

Abba Technologies

2022 – 2022

NOC Analyst

Albuquerque, New Mexico

- Onboard new employees for clients involving setting up PC's laptops and logins through Office365 and active directory. Various other softwares and permissions as required by the client.
- Provide comprehensive technical support by resolving client trouble tickets, including password resets, file access requests, network connectivity issues, printer malfunctions, and other IT-related challenges.

Templeton Transportation

2018 – 2022

Hazardous Materials Driver

Albuquerque, New Mexico

- Safely transport hazardous materials, ensuring compliance with legal regulations and timely order fulfillment.
- Complete invoices accurately and ensure timely customer payments; verify insurance and permits are valid.
